Title: Youth work in a global city

Type: European solidarity corps volunteering

Description: Come and join our team dedicated to youth work and summer camp activities for children, teenagers, and young people in general. Our office is located in the city center of Frankfurt am Main. As an ESC volunteer you will be given the public transport ticket to be able to move around the Hessen region. At the beginning of your stay, our current ESC volunteer will be by your side and help you with the orientation.

Your ESC volunteering tasks will depend on your interest in the summer camps.

Option 1: you are very interested in summer camps. You will help with the preparation, you will be given a training on how to be a camp leader and you will actively become part of the summer camps teams. You might join 2 or more summer camps. Here a basic level of German language (or willingness to learn a lot in little time) is a very important asset.

Option 2: you are more interested in youth work and would like to engage more in our local / regional and international youth projects. You would join several workshops, help to organize them, you would raise the awareness of European programs by presenting the ESC program at several fairs and you would be open to help other colleagues in the office.

If both options interest you, it is possible to do a bit of both. Given the shorter duration of the volunteering, it may be best if you focus on one.

In both cases, we would very much appreciate your engagement, your own initiative and willingness to keep our social media updated with images and videos.

Happy to receive your motivation letter and CV on the following e-mail address:
