CITY AND REGION

Le Mans (143000 inhabitants) is located in the West of France. It is the administrative center of the Sarthe department, in the Pays de La Loire region (55 min from Paris).

You will have time to discover the city. Le Mans is a beautiful art and historical city; it is the third one of the Pays de la Loire region when it comes to culture and tourism. The old city center is surrounded by Roman walls and the most recent renovation works organized to preserve the oldest parts of Le Mans have helped to enhance its local heritage. Two rivers cross the city which has been named one of France greenest cities. There we can find various parks and gardens, in addition to the two big forests bordering the city.

LE MANS

OUR PROJECTS

We develop projects on topics that are very important to us. One of these topics is environmental education and awareness. We also run activities on promotion of european mobility, volunteering, international workcamps and training courses.

We work on those projects in pair and give the possibility to young volunteers to develop the projects with our partner. It means that the volunteers work together and have a lot of freedom of what to suggest and to build the activities they want to build.

As we believe that doing an ESC also means to be involved in the activities of the association, we ask the volunteers to take part in the local events and activities that Concordia and the area organize (opening days of Concordia, special associative days or weekends organized by other volunteers...).

Also, in the city, there are many non-governmental organizations which we are working with, so you can be proposed to help them in organizing or participating in their events.

In July and August the volunteer could participate in the work camps with Concordia as a co-leader or leader.
